

# BESPOKE PLUS

*"If your work speaks for itself, don't interrupt!"*

September 2009

Volume 7, Number 84

*RGK manufacture BESPOKE (custom made) wheelchairs for daily use and active living customers. Made to measure products with RGK's industry leading ERGO Seating ensures the ultimate in postural support and performance!*

## 15<sup>th</sup> REE Show

Come and meet us at booth 55-56 at the 15<sup>th</sup> Annual Rehab Equipment Expo (REE) at the Seathforth Armories 1650 Burrard Street, Vancouver, BC September 15<sup>th</sup>, 2009. Admission is \$2 at the door (free with the coupon below and also free to car poolers) and you can help yourself to beverages and refreshments throughout the day. REE is designed to give clinicians and consumers in the community and health facilities access to information needed to make educated decisions regarding the purchase of assistive technology.

It is an excellent opportunity to discover support groups who provide services to people with a disability and it is an opportunity to network and get back in touch with professional colleagues. The event traditionally draws over four hundred clinicians and three hundred staff members from the seventy exhibitors. There will be representation from all the major funding sources and consumers are welcome to attend.

This year, we will be showing the RGK Bespoke units, all the VARILITE® seating and positioning products, Kenda tires, and the Ki Mobility Tsunami, Catalyst 5, 5Ti, and 5Vx. Jaimie Borisoff will also be on hand showcasing his Elevation™ Units.

This voucher when filled out completely entitles the bearer to free admission.

**YOUR INFORMATION WILL ONLY BE USED TO INFORM YOU OF FUTURE REE'S**

## Americas Cup

We recently had the pleasure of being involved in the Americas Cup and take this opportunity to congratulate the USA, Canada, and Mexico who all qualified for the 2010 World Championships in Birmingham, England with their performance at the event. This event was held at the Richmond Oval and organized by BC Wheelchair Basketball and Wheelchair Basketball Canada.

Thank you RGK, VARILITE®, Ki Mobility, KENDA, and Spinergy, for doing your bit to ensure the success of this event.

See [www.sportscanada.tv](http://www.sportscanada.tv) for all the games and [www.wheelchairbasketball.ca](http://www.wheelchairbasketball.ca) for results!

## VARILITE® Technology

**VARILITE®** cushions come in widths from 12 to 24 inches and tested to 750 pounds in the largest sizes. **VARILITE® Products "Air-Foam Floatation Technology"** works by combining the best characteristics of air and foam!

### AIR:

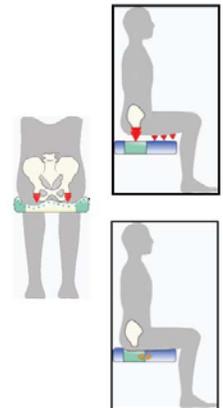

- Fluid & displaces under load
- Provides pressure relief

### FOAM:

- Acts like a spring; compresses under load
- Provides support & conformation

### Air-Foam Floatation – Key is immersion.

- The valve releases air to immerse the user in the foam
- Each cell of the open-cell foam provides support and distributes the pressure
- Increased immersion provides increased load distribution and greater stability
- Optimal pressure distribution is achieved over the largest possible area

### A VARILITE® cushion is dynamically supportive:

The combination of soft foam under the pelvis and firmer foam under the thighs creates continually adjusting forces that evens out the interface pressures. We excel in 1. Pressure distribution, 2. Postural support 3. Vibration reduction, 4. Light weight, 5. Low maintenance.

## Bits and Bytes

- European Seating Symposium Dublin, Ireland September 14 – 17;
