

VARILITE® Air-Foam Floatation combines the best characteristics of air and foam! Our most popular cushion product is the **Evolution™**.

AIR: Fluid, displacing under load providing pressure relief.

FOAM: Acts like a spring compressing under load and providing support and conformation.

Air-Foam Floatation Immersion is key!

The valve releases air to immerse the user in the foam. Each cell of the open-cell foam provides support and pressure distribution. Increased immersion provides increased load distribution and greater stability. Optimal pressure distribution is achieved over the largest possible area. The combination of soft foam under the pelvis and firmer foam under the thighs creates continually adjusting forces that even out the interface pressures.

Motion Specialties Open House

Congratulations to Motion Ottawa moving into their new digs at 3020 Hawthorne Rd, Suite 200A, Ottawa, ON K1G 3J6. 49 Bespoke, Inc., looks forward to continuing our cross town working relationship and wish Charles, Luc, and the gang continued success!

49 Bespoke Inc.

RGK Wheelchairs, Inc., was officially renamed 49 Bespoke Inc., in September 2009. This took place as a result of growth in the scope of the legal entity originally formed to bring RGK Wheelchairs to North America. After a decade of marketing and promoting RGK Wheelchairs and strengthening relationships with **Varilite**®, **Ki Mobility**, **Kenda**, and other manufacturers, Russel Simms and Greg Eden sold their shares in the company to Reg McClellan. Although the logos for those companies have always been front row and center, it has been a goal to come up with a name for the importer of these fine products to have a generic name.

We chose to use the numbers 4 and 9 with the English term for custom made "Bespoke" and to add the legal incorporated requirement. The significance of the 4 and 9 relate to Reg McClellan's privilege to have worn the number 4 for over 20 years on the men's national wheelchair basketball team and an honor that his partner shares having wore the number 9 on the women's national team for 20 plus years. You will gradually see imagery change, but it will be business as usual in the marketing and promotion of all the products you have come to expect from us!

VARILITE® ICON Coming Soon

Built with everyone in mind, the user, care giver, clinician and technician, the Icon™ Back System will be available in March 2010. It will provide the best solution for those who demand fast installation, adjustment versatility, and simple operation. The Icon Back will be offered in a variety of back types and sizes, all with innovative adjustable hardware plus a **VARILITE**® air-foam floatation cushion for superior comfort. In addition, and what you have come to expect from **VARILITE**®, it is designed to meet 14 different ISO/internal performance tests. Here is a sneak peak!

KENDA Winter Tires, New Tubes

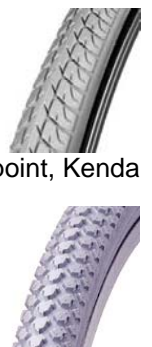

Whether it is 20" (406, 451), 22" (489, 490, 501), 24" (507, 540, 547), 25" (559), 26" (571, 590), or 27" (622) Kenda has a number of tires styles to choose from (K161 to the left, K192 top right and K812 bottom right) and now they have introduced a new heavy duty tube. Whereas standard tubes are 0.87 mm

thick and thorn proof are 4.3 mm at the thickest point, Kenda now offers a 2 mm thick tube sure to gain popularity with all high pressure users

including the Rugby and Basketball markets! The imagery to the left shows the 4.3 Thorn Resistant, the 1.2 mm heavy duty tube, and the 0.87 mm standard tube.

Bits and Bytes

- International Seating Symposium March 10-13, 2010 in Vancouver, BC.

BESPOKE PLUS helps to market and promote **RGK Wheelchairs**, **VARILITE**® Seating and Positioning Systems, **KENDA**, and **Ki Mobility** products, along with Spinerger, Glance, Rogue, Frog Legs, Schwalbe, Sun, MBL and other great products.

If what we do is not up to the standard you expect, please give us a call, or if you have something that you think we should be expounding on in this forum, please contact the editor, Reg McClellan.
